

THE MUSEUM Shoobox Museum!

What you'll be needing:

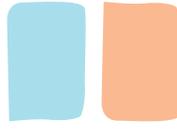

An old shoebox

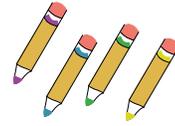

Scissors

Glue

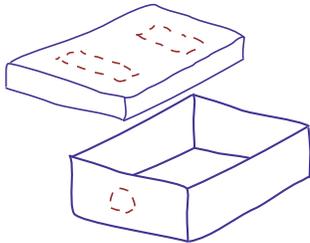

Colored Paper

Pencils or crayons

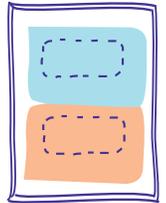

1.

Ready? Let's build a shoobox museum!

1. Take the shoe box and cut 2 large holes in the lid to allow light to come through once the box is closed. Also cut a small hole to peep through at the front of the box itself.

2.

2. Cut pieces of the colored paper big enough to cover the holes in the lid of the box. Flip the lid over and glue the paper on the inside so your museum looks tidy once the lid is placed back on. To make your museum extra special, experiment with paper in different colors!

3.

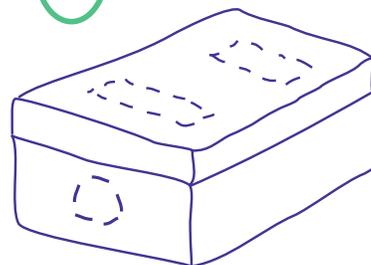

3. Make a mini piece of art within the frame on the next page. Once you are done, cut out all the pictures. Beware to cut along the cutting lines.

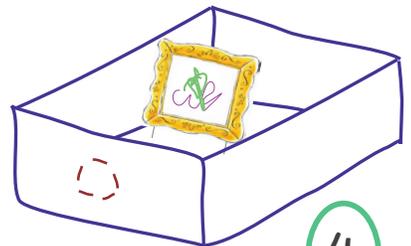

4. Fold along the designated lines, apply glue and place them in your museum.

5. Put the lid on and have a peek!

5.

4.

Let's wander around your museum!
